25X1

1. The Stahl- und Walzwerk Griesnitz (VEB) urgently needs a complete hydraulic unit consisting of the following pieces of equipment:
  - a. 3 hydraulic compressors (Presswasserkompressoren)  
capacity: 2,000 liters per minute, 3-step up to 200 atmospheres operating pressure
  - b. 6 high pressure steel cylinders  
capacity: 2,000 liters at 200 atmospheres operating pressure and 300 atmospheres test pressure  
dimensions: outside diameter: 300 mm.  
wall thickness: 60 mm.  
length: about 6,350 mm.
  - c. 12 high pressure steel cylinders  
capacity: 1,000 liters at 200 atmospheres operating pressure and 300 atmospheres test pressure  
dimensions: correspondingly smaller than those listed above
  - d. 1 complete control unit (Steuerungsanlage) with piston or float regulator or mercury regulator
  - e. If possible, with a corresponding number of meters of high pressure pipe, diameter 140 mm.\*
